Sir,

JAN 1949

Sub: Buildings - Forest Bungalows - Kadri Hills - Mangalore Electrification - Proposals.

Ref: Govt. Memo.No.134286 CI/48-1, dated 16-12-48

s/p. 1 above

There is a proposal to electrify the bungalows of the District Forest Officer and the Assistant to the District Forest Officer, at Kadri Hills, Mangalore at an estimated cost of about Rs.7000/- during 49-50. Details as to the necessity for the revision of the estimates based on current prices are being called for. Government will be addressed in due course when the estimates are ready.

K

2. The District Forest Officer has, however, suggested as an interim arrangement to the proposal in para 1 above that a sum of Rs.150/- may be sanctioned in the current year to cover the cost of a service connection to the District Forest Officer's quarters and that he may be permitted to have the wiring done privately at his own cost. I did not approve of the proposal as I consider it most objectionable in respect of a Government building.

There are two onerous terms. Suppose the present tenant is willing to buy over the installation. Cl 1 will prevent this. Why should we have the latter part of Cl 1 clause

Submitted.

It will not be necessary to remove the fittings if either the next occupant is willing to pay for the installation or the Office is prepared to leave it without removing.

But it seems that the option to remove the fittings should be given to the Office at whose cost they are installed to protect him from loss.

Perhaps the following may be substituted for the latter part of condition (1), viz:-

"The installation may be removed by the occupant when he vacates the quarters or may be sold to his successor or may be left behind."
